Our cabinets use outdoor powder coating technology, with multi-stage pretreatment and high-temperature curing to create a dense protective layer bonded to the aluminum :

Titanium Grey

Midnight Black

Oak Sand

- **UV resistance** — prevents fading and chalking
- **Corrosion protection** — withstands rain, humidity, and salt air
- **Scratch resistance** — strong adhesion, not easy to peel
- **Eco-friendly** — solvent-free, low VOC

Each production batch is tested for weathering and salt-spray performanceto ensure durability in real outdoor applications.
